OVERVIEW

Enthusiastic Full Stack Developer with a strong foundation in React, Redux, Node.js, Express, and MongoDB. Experienced in developing responsive web applications through academic and personal projects. Quick learner with a passion for problem-solving and eager to contribute to real-world projects.

WORK EXPERIENCE

Frontend Development Intern – Dehix

NOV 2024 – FEB 2025

- Built and optimized responsive user interfaces using React.js, Vite, and Tailwind CSS.
- Worked with React Router and component-based architecture to create seamless navigation and reusable UI.
- Collaborated with backend team to integrate REST APIs and display dynamic data on the frontend.
- Improved UI/UX performance by debugging issues, refactoring code, and following best practices.
- Gained experience in version control (Git/GitHub) and agile development workflows.

EDUCATION

Dr. A. P. J. Abdul Kalam Technical University

2021-25

B.Tech in Computer Science Engineering

Scottish International School

2020-21

12th Grade

PROJECTS

Portfolio Website 🔗

React, Vite, Tailwind CSS, Express.js, MongoDB, Nodemailer

- Developed a full-stack portfolio website with a React (Vite) frontend and Express.js + MongoDB backend.
- Designed a responsive user interface using Tailwind CSS, Radix UI, and Lucide icons for modern visuals.
- Implemented RESTful APIs with Express.js for user data handling and authentication, secured with CORS.
- Integrated Mongoose ORM for database operations and Nodemailer for automated email notifications.
- Ensured scalability with modular architecture, ESLint code quality checks, and error handling middleware.

BookStore 🔗

React, Vite, Tailwind CSS, Express.js, MongoDB, JWT, Bcrypt

- Developed a full-stack bookstore application with a React (Vite) frontend and Express.js + MongoDB backend.
- Designed a responsive and interactive UI using Tailwind CSS, DaisyUI, Framer Motion, and Lottie animations.
- Implemented RESTful APIs with Express.js for book and user management, secured with JWT authentication & bcrypt.
- Integrated Mongoose ORM for efficient database operations and Axios for smooth client-server communication.
- Deployed on Vercel with ESLint configuration, modular architecture, and Nodemon for optimized development workflow.

SKILLS

- Programming Languages: JavaScript, HTML, CSS, Python, TypeScript
- Frontend: React, Tailwind CSS
- Backend: Node.js, Express.js
- Database: MongoDB
- Tools: GitHub, VS Code, Postman, Git
- Cloud/Other: AWS S3, Render, Vercel
